

## Add and Edit Ink Supplier Information on a Large Format Printer

Adding and editing of Ink Supplier information is completed via the web interface of a supported Large Format Printer. The web interface is known as Remote User Interface (RUI). To complete the task below Administration mode will be required. It is required to enter a password to enter Administrator mode. The default password is the serial number of the Canon Large Format Printer.

1. Access RUI by entering the IP address of the printer into a web browser and pressing enter (Note: task cannot be completed via USB connection). Once RUI is shown click Log in to continue.

2. Enter the password of the administrator, will be the serial number of the printer if not changed by the user and click OK.

3. Click Device settings

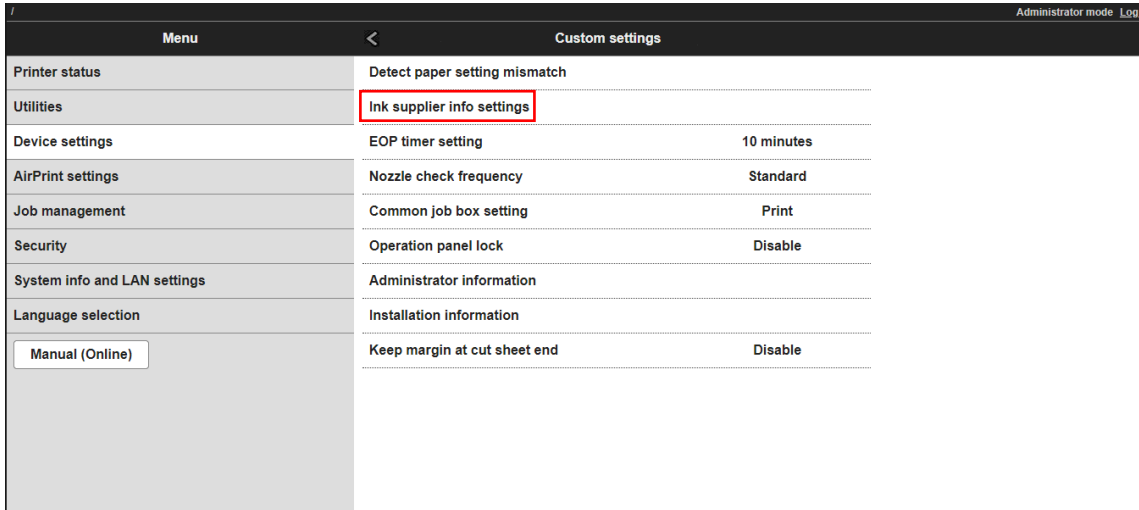

The screenshot shows the printer's control panel interface. The top bar includes 'Menu' and 'Printer status' with 'Administrator mode' and 'Log' on the right. The left sidebar contains a 'Menu' column with items: Printer status, Utilities, Device settings (highlighted with a red box), AirPrint settings, Job management, Security, System info and LAN settings, and Language selection. The right pane shows 'Printer status' with 'Sleeping' and 'Estimated ink levels' sections. The ink levels are displayed as horizontal bars for 'Left' and 'Right' sides, listing various ink cartridges like PFI-1300 PM, R, C, PGY, MBK, PBK, B, CO, GY, Y, M, and PC.

4. Click Custom settings

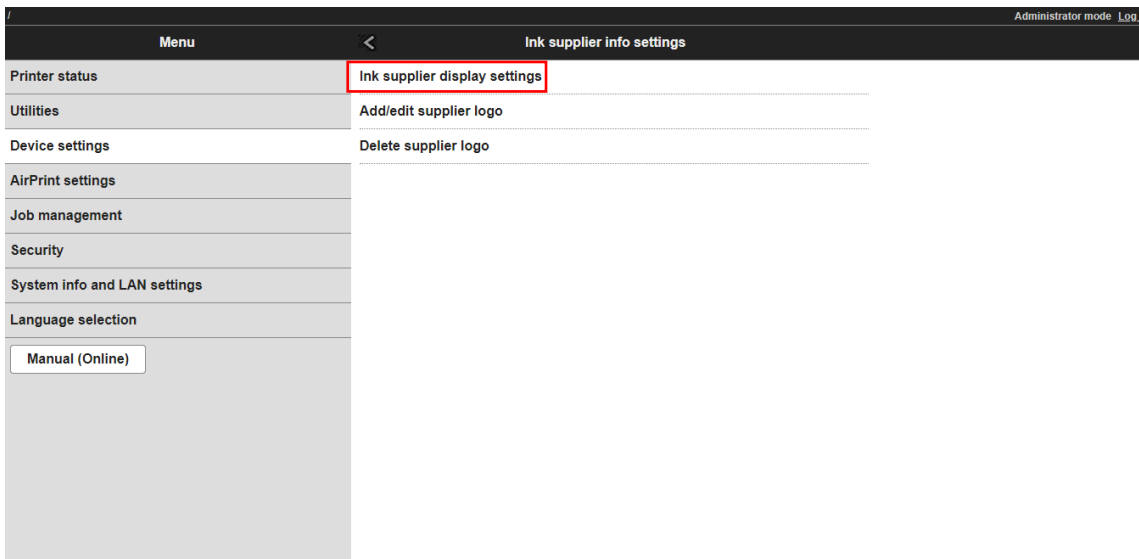

The screenshot shows the printer's control panel interface with the 'Device settings' menu open. The top bar includes 'Menu' and 'Device settings' with 'Administrator mode' and 'Log' on the right. The left sidebar contains a 'Menu' column with items: Printer status, Utilities, Device settings (highlighted with a red box), AirPrint settings, Job management, Security, System info and LAN settings, and Language selection. The right pane shows 'Device settings' with sub-sections: Energy saving settings, Print settings, Printer information, Print advanced paper settings, Print menu map, and Save device info.

5. Select Ink supplier info settings

6. Click Ink supplier display settings and enter in text or URL as required. This will be shown when Order My Ink Now is selected.
