PIXMA PRO-200

Canon

Stunning Professional Quality Photos

up to A3+ size

The PIXMA PRO-200 maximises the performance of an 8-colour ink system to create professional photos up to A3+ sizes easily. Crystal-fidelity digital image processing workflow ensures the highest retention of image quality from image capture to print, making it the ideal companion for all professional photographers and graphic artists.
HIGH QUALITY

The unique 8-colour dye ink system in the PIXMA PRO-200 delivers a wider colour gamut than 4 or 6 ink systems, delivering superb contrast and enhanced blacks, with richer colour expression in red and blue zones. The Optimum Image Generating (OIG) System also analyses each area of print and chooses the best ink mixture to ensure the most accurate colour representation in print.

Predecessor Model   PRO-200

EXTENDED PRINT LONGEVITY

The new inks are designed for excellent print longevity, resisting fading and image degradation under common display conditions.

HIGH PRODUCTIVITY

COMPACT AND SPACE SAVING

15% smaller in footprint compared to predecessor models, taking up less space on work desks.

RELIABLE PAPER FEEDING

An automatic skew correction function prevents mistakes in paper alignment and reduces paper wastage.

3-INCH COLOUR LCD DISPLAY

Allows easy navigation of printer functions, as well as monitoring ink levels and paper settings.

VERSATILE MEDIA PAPER HANDLING

The ability to print stunning images on a diverse range of paper media sets this printer apart from the competition. Aside from matte, semi-gloss, super high gloss to Fine Art grade papers up to A3+ sizes, the PRO-200 also handles thicker papers easily with a manual feed tray for straighter path feeding. An included multi-purpose tray rounds up the impressive paper handling, giving the user additional options to print disk labels, and even nail stickers.

SUPPORTS PRINTING OF PANORAMIC PHOTOS AND CUSTOM BORDER MARGINS

The PRO-200 supports your creative vision with options to customise border margins for perfect framing requirements, panorama size paper at 210 x 594 mm as well as the ability to print on long paper lengths up to 990.6mm.

WORKFLOW SOLUTIONS

CANON PROFESSIONAL PRINT & LAYOUT
SEAMLESS WORKFLOW INTEGRATION

The Canon Professional Print & Layout software enables a professional screen-to-print workflow for precise layout control and soft-proofing.

For users of supported Canon EOS system camera, Canon Crystal-fidelity technology extracts the maximum possible dynamic range, colour expression and sharpness, bringing images from camera to print effortlessly for hobbyists and professionals alike.

MEDIA CONFIGURATION TOOL
FOR OPTIMAL PRODUCTIVITY

Simplifies media management for Canon and third party media, allowing you to customise media in both the driver and printer for optimum print result.

STUDIO QUALITY PRINTING

Whether for photography, fine art, or digital art prints, these papers reproduce photos with outstanding detail and quality, producing replica prints as beautiful as the originals.

NEW

FA-RG1
Premium Fine Art Rough
- 320 g/m²
- A4, A3, A3+, A2

A premium fine art rough paper for expressing depth of image and adding three-dimensional touch.

FA-SM1
Premium Fine Art Smooth
- 310 g/m²
- A4, A3, A3+, A2

A professional high-quality paper for professional inkjet printers.

LU-101
Photo Paper Pro Luster
- 260 g/m²
- A4, A3, A3+, A2

Luster finish provides an elegant surface that resists fingerprints and virtually eliminates glare.

PM-101
Photo Paper Pro Premium Matte
- 170 g/m²
- A4, A3, A3+, A2

Smooth texture with warm white tone for prints without the reflective sheen.

PT-101
Photo Paper Pro Platinum (Super High Gloss)
- 260 g/m²
- 4 x 6", A4, A3, A3+, A2

Professional studio finish photo paper offering outstanding quality.

Specifications are subject to change without notice.

*1 Ink droplets can be placed with a pitch of 1/4800 inch at minimum.
*2 Photo print speed is based on the default setting using ISO/JIS-SCID N2 and does not take into account data processing time on host computer.
   Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
*3 Paper types NOT supported for borderless printing are as follows: Envelope, High Resolution Paper, T-shirt Transfer and Photo Stickers.
*4 Operation can only be guaranteed on a PC with pre-installed Windows 7 or later.
*5 The performance of the printer may be reduced under certain temperature and humidity conditions.
*6 For the temperature and humidity conditions of papers such as photo paper, refer to the paper's packaging or the supplied instructions.
*7 When printing ISO/JIS-SCID N2 test file at 11 x 14" size continuously on A3+ Photo Paper Pro Platinum (PT-101), with the default settings of testing paper using Windows 10 printer driver and Photoshop CC.
*8 Declared yield value in accordance with ISO/IEC 24711 (for A4) using ISO/IEC 24712 test file and ISO/IEC 29102 (for 4 x 6") using ISO/IEC 29103 test file. Value obtained by continuous printing.
   Right-click the image on Windows 10 and select "Print" from the menu to print.
*9 Estimated Supplemental Yield.
